

800-942-4447

.357 White

- Our best combination of opacity and bleed resistance ever created.
- Fantastic for 100% polyester baseball, football, and soccer uniforms.
- Excellent results on cotton, poly/cotton, and untreated 100% nylon.
- Increased durability for long-lasting prints.
- Phthalate compliant formulation meeting CPSIA requirements.

Who should use this ink?

White ink is supposed to look white. If you demand results on even the most difficult polyester fabrics, look to the .357 for a powerful solution.

Who should not use this ink?

.357 White was formulated with quality in mind. It is a top shelf ink with a top shelf price. If you need a low-price solution for polyester printing, this may not be for you.
