

800-942-4447

Colormax Series

- Our most opaque cotton and poly/cotton screen printing ink.
- Excellent bleed resistance for preventing dye migration.
- Will adhere to untreated 100% nylon.
- Available in a large selection of colors.
- A white underbase is no longer required for printing on black.

Who should use this ink?

Colormax Series is perfect for screen printers looking to get rid of the white underbase. If you want to get rid of an extra screen on-press, this ink is for you.

Who should not use this ink?

Colormax Series is not for screen printing on 100% polyester. Most other non-stretchable fabrics will not be a problem.

Saatichem PW-4
Saatichem IR-4

Always perform a pretest print and test cure conditions on the fabric to be printed to establish the best results. Stir inks vigorously before each use. Viscosity may need adjusting for best results. If there is ever a question about a print job, call us at 1-800-942-4447. We are always happy to help!
